Aaron Nobbe

PROFILE

A dedicated, hard-working graduate student at Southern Illinois University Edwardsville (SIUE) that is responsible in both time and resource management. Great at leading amongst peers and communicating through experience in teaching and group projects. Very active on campus, including a strong presence in club sports. Experienced in circuit analysis, machine learning, computer software, and programming, currently seeking to apply these skills through a master's degree in electrical and computer engineering and a major-related internship.

SKILLS

Circuit Analysis | Digital Signal Processing | Machine Learning | Python | LabVIEW | MATLAB | C++ | Java
Microsoft Office | Leadership | Teambuilding | Communication | Digital Design | Digital Logic | LTSpice
Embedded Systems | Signal Processing | Scrum | Agile

EDUCATION

MS - Electrical & Computer Engineering, SIUE

August 2026 – PRESENT

- Graduate Assistant - Digital Systems (Fall 2026)
- Club Sports Executive Council 26/27 Academic year

BS - Computer Engineering, SIUE

August 2022 – May 2026

- GPA: 3.275
- Mathematics Minor, Computer Science Minor

ACTIVITIES & EXPERIENCE

SIUE Club Tennis Vice President (26/27)

- Assume fundraising role
- Assist president in general duties

SIUE Club Tennis Treasurer (23-25)

- Recorded payments/account balances
- Reimbursed members for general purchases
- Traveled competitively

Secretary, IEEE Board

Spring 2026

- Set up events, put out flyers, and promoted IEEE to the SIUE community

Server/Bartender — Hank & Lily's Creekside

May 2024 – Aug 2026

- Learned to work in a fast-paced environment
- Communication skills

SIUE Club Tennis President (25/26)

- Ran club tennis (~50 members)
- Traveled competitively
- Maintained a 4.0 GPA

SIUE Club Tennis Member (22/23)

- Provided speaker and music all 4 years
- Traveled competitively

Director - Code Ninjas

May 2026 – PRESENT

- Ensuring safety/effective learning for camps
- Helping kids 8-14 learn how to code

Lifeguard — Monroe Co. YMCA & Meadow Ridge

Jun 2021 – Aug 2023

- Certified through YMCA Lifeguard training
- Maintained safety and protocol

PROJECTS

Wind Tunnel Data Acquisition & Control Interface — LabVIEW

- Built LabVIEW UI using RS-232 to monitor X/Y/Z probe position via a VP9000 controller
- Integrated dynamometer data for real-time lift, drag, and yaw/pitch measurement

Infrared Morse-Code Communicator

- Built two-node IR link decoding Morse in real time
- Implemented bare-metal drivers for IR sensors, external SRAM, and LCD

Hero Jump

- Implemented C++ game logic with LCD and push button to create an experience like the chrome Dino game

Website Summarizer

- Built a Python tool to scrape websites' HTML and generate summaries using Open API keys
